

**We are a Sheffield-based family run business offering Payroll and Budget Management Services.**

**Parkside Payroll** offers families a reliable simple payroll service which frees them from the worry of dealing with HMRC, keeping accurate records for them. We provide a service which is tailored to a family's individual needs.

With years of experience in working with families with disabled young people and also, older people receiving Direct Payments (whether funded by Social Services, NHS or both), or those making a private arrangement, we know that they value the peace of mind a reliable, friendly and small business can provide. This then frees them to spend more time with their family which is what they most need. We are able to help with organising holiday pay and advice about sick pay. We can offer a simple contract for families to offer their PAs. We have learnt that being available to respond quickly to anxieties and payroll queries is a quality which is greatly appreciated as is having genuine understanding of individual families' needs.

**Parkside Payroll** also offers a more comprehensive full Budget Management Service, where we take complete responsibility for all the finances, paying PAs, bills etc. We keep accurate records which are also sent for monitoring by the local Council.

We are fully compliant with Sheffield CC Money Management Protocol and can also be found on the Sheffield Directory website.

**Parkside Payroll** also offers an appointeeship service that enables individuals to continue living independently in the community.

We can help safeguard people at risk of financial abuse, giving peace of mind to the individuals, their families and the professionals caring for them.

We are able to offer regular home visits including personal cash delivery as well as taking responsibility for paying regular bills.

**We are happy to come and visit you in your own home and answer your queries. It is our aim to make the whole procedure as simple as possible and to help you to live your lives in the knowledge that your finances are being taken care of.**
