Our Aim

It is our aim to make the whole procedure as simple as possible and to help you to live your lives in the knowledge that your finances are being taken care of.

We have years of experience in working with a full range of people with additional needs, from families with disabled young people through to our many elderly clients (ages 1-101!)

We know that they value the peace of mind a reliable, friendly and local business can provide.

This then frees them to spend more time with their family which is what they most need.

We have learnt that being available to respond quickly to anxieties and payroll queries is a quality which is greatly appreciated as is having genuine understanding of individual families' needs.

We are always happy to talk to you or your PAs about any queries you may have, no matter how small they may seem!

Our Services

Payroll Services

We offer families a reliable simple payroll service. Our goal is to make life as stress- and worry-free as possible for everyone.

We keep accurate records which are also sent for monitoring by the local Council.

We guide our clients with the following steps:

- Registering as an employer and taking out Employer's Liability Insurance
- Sorting out Pensions for the employer and employees
- Setting up contracts with PAs and advising on their holiday PA, tax code, student loans etc.
- Notifying HMRC of payments and completing year-end promptly
- Completing the necessary FPS on your behalf

Budget Management

We also offer a more comprehensive, full Budget Management Service, where we take complete responsibility for all the finances involved!

This involves either us running your payroll service or paying day service providers and other agencies on your behalf.

We also then complete financial monitoring on your behalf. You are sent quarterly statements to give you an overview of your finances.

Additionally this can help us safeguard people at risk of financial abuse, giving peace of mind to the individuals, their families and the professionals caring for them.
