

Tax Codes for Employees

If you have more than one job and your total earnings add up to less than your annual allowance then you can ask HMRC to split your codes across however many jobs you have.

The personal allowance for 2022-2023 is £12,570.

To change your codes you need to phone HMRC on 0300 200 3300. If they need it we can supply the family's/employer's tax district reference number which will help them match it to your jobs.

HMRC will ask for your National Insurance number.
